Declarant hereby declares that all the real property located in Deschutes County, Oregon, known as CANYON RIM VILLAGE Subdivision as recorded on February 7, 2005, shall be encumbered, leased, occupied, built upon or otherwise used, improved or transferred in whole or in part subject to this Declaration. All of said Restrictions are declared and agreed to be established with the purpose of protecting the desirability and attractiveness of said real property and every part thereof. All of the Covenants, Conditions, and Restrictions of CANYON RIM VILLAGE Subdivision run with all of said real property, including any additions thereto, for all purposes and shall be binding upon and inure to the benefit of Declarant and all Owners and their successors in interest set forth in this Declaration.

Section 3. ARCHITECTURAL CONTROLS.

3.1 Approval Required.

No improvement, as defined in Section 1.9 above, shall be erected, placed, altered, maintained, or permitted to remain on any land subject to this Declaration until final plans and specifications have been submitted to and approved in writing by the ARC.

3.2 Procedure.

Any owner proposing to construct any improvements within the CANYON RIM VILLAGE Subdivision (including any exterior alteration, addition, destruction, or modification to any such improvements) shall follow the procedures and shall be subject to the approvals required by paragraphs 3.3 through 3.7 below. Failure to follow such procedures or obtain such approvals as required by paragraphs 3.3 through 3.7 below shall be deemed a breach of this Declaration.

3.3 Required Documents.

Any owner proposing to utilize, improve and/or develop real property within the CANYON RIM VILLAGE Subdivision shall submit the following items for review:

- (a) A site plan showing the location, size, configuration, and layout of any building, structure, or improvement (or, where applicable, any alteration, addition, modification, or destruction thereto) including appurtenant facilities for parking, storage, and fences. The scale of plans shall be 1 inch = 10 feet.
- (b) Architectural plans and drawings showing the nature, style, and dimensions of any building, structure, fence, wall, barrier or deck (or, where applicable, any alteration, addition, modification or destruction thereof), including the exterior material types, colors, and appearance. The scale of plans shall be 1/4 inch = 1 foot.
- (c) \$1500 fee, or whatever fee is at time of submittal, shall be submitted with application for new construction (\$250 for remodel or addition). Up to \$1,200 is refundable 30 days after ARC final inspection of project completion (\$200 refundable for remodel or additions). Fees are forfeited if project is not completed for occupancy (section 4.18) or no final ARC review is requested within 1 year of application approval.

date. Please refer to the Architectural Rules and Guidelines for additional documents that may be required.

3.4 Review.

All plans and drawings identified in paragraph 3.3 above shall be submitted to the ARC for review prior to the performance of any proposed work. Such plans and drawings shall be accompanied with a check payable to Canyon Rim Village Home Owners Association (CRVHOA) in an amount to be determined by CRVHOA from time to time. No plans shall be reviewed until the architectural review fee is paid in full and ALL items noted on the Plan Review Checklist have been submitted and addressed by the applicant. The ARC shall review the plans and shall inform the owner in writing whether the plans conform to the development concept for CANYON RIM VILLAGE Subdivision. In the event any of the plans do not conform to the CANYON RIM VILLAGE Subdivision development concept, the owner shall resubmit those non-conforming portions of the plans for review in accordance with the procedures outlined in paragraph 3.3 above, and this paragraph. No work may be performed relating to any improvement unless and until all aspects of all plans required under paragraph 3.3 above have been approved by the ARC.

3.5 Architectural Guidelines.

The development concept for the CANYON RIM VILLAGE Subdivision shall be determined by the ARC in accordance with applicable statutes, ordinances, regulations, zoning and other governmental land use controls. Architectural guidelines setting forth various aspects of the development concept, in addition to this Declaration, may be published and revised from time to time by the ARC, but the ARC shall not be required to do so. The ARC shall have the right to alter, rescind or amend any published guidelines without prior notice to any given party; provided however, that once approval has been given pursuant to paragraph 3.4 above, work may proceed in accordance with the approved plans and drawings notwithstanding any changes in the development concept. All such guidelines shall be in general conformity with this Declaration. After Class B voting rights have been converted to only Class A voting rights, the ARC Guidelines can only be altered, rescinded, or amended by a majority vote of Class A members.

3.6 Inspection.

All work related to any building, structure or improvement or any landscaping, vegetation, ground cover or other improvements within the CANYON RIM VILLAGE Subdivision shall be performed in strict conformity with the plans and drawings approved under paragraph 3.4 above. The ARC shall have the right to stop all work if it believes that any such work is non-conforming. In the event that it is determined by the ARC that certain work is non-conforming, a stop work notice may be issued, without necessity of court order, which shall require the owner to correct all non-conforming work specified in the notice before the remainder of the proposed work may be completed. Continued work without correction of any such non-conforming items shall be deemed a breach of this Declaration. The ARC or officer, director, employee, agent or servant of the ARC shall not be responsible for any damages, loss, delay, cost or legal expense occasioned through a stop work notice even if it is ultimately determined that such work was in conformity with the approved plans and drawings.

3.7 Waiver.

Any condition or provision of paragraph 3.2 through 3.6 above may be waived by the ARC in its exclusive discretion. Any waiver shall be in general conformity with the development concept and development standards for the CANYON RIM VILLAGE Subdivision. Any such waiver shall not be deemed a general waiver of any aspect of the development concept or the required procedures and approvals specified under paragraphs 3.2 through 3.6. The granting of a waiver as to one owner shall not automatically entitle any other owner to the waiver of the same or similar conditions or provisions. No waiver shall be valid unless it is in writing, signed by an authorized representative of the ARC and delivered to the party claiming the benefit of such waiver.

Section 4. RESTRICTIONS.

4.1 Access to Property.

No other private properties may be used for access without that Owner's written permission with the exception of recorded access and alley easements.

4.2 Accessory Dwellings

An Accessory Dwelling is a dwelling unit with a kitchen, usually located above an attached garage on a single-family residence. The City of Redmond recognizes Accessory Dwellings as Duplexes and thus allows them on lots with at least 7500 sq ft. Accessory Dwellings in Canyon Rim Village are allowed with the following conditions:

- The entire living space is limited to 650 sq ft as measured under roof area.
- Living space must be above an attached garage and limited to one floor.
- At least one improved parking pad is required off alley.
- The ARC requires enhanced design elements to minimize "boxy" garages
- In Phase VI, only on lots 119 and 126.

4.3 Alley Easements.

Some Lots are encumbered by recorded access and alley easements.

4.4 Antennas.

Television antenna, radio antenna, satellite antenna or other receiving or transmission devices are subject to approval by the ARC.

4.5 Appearance.

All garbage, trash, cuttings, refuse, garbage and refuse containers, clothes drying apparatus, heat pumps, air conditioners, solar heating systems, and other service facilities located on the Lot shall be screened from view of front streets and, are subject to approval by the Architectural Review Committee.

4.6 Common Area

No planting or gardening shall be done, and no fences, hedges, or walls shall be erected or maintained upon the Common Area or upon any Lot, except in accordance with the initial construction of the improvements located thereon or as approved by the Association's Board of Directors or their representatives. Except for the right of ingress and egress the Owners of Lots may use the

property outside their respective Lots only in accordance with reasonable regulations as may be adopted by the Association's Board of Directors or as is expressly provided herein. It is expressly acknowledged and agreed by all parties concerned that this Section is for the mutual benefit of all Owners and is necessary for the protection of all Owners. Declarant shall not be responsible for Common Area maintenance.

4.7 Driveways and Walkways.

Allowed materials for driveways include concrete, asphalt and masonry. All driveways shall be finished prior to occupancy. Exceptions may be allowed with ARC approval. Builders and Builder/Owners are responsible for repair of all driveway cuts, concrete breakage of curbs, sidewalks or sidewalk aprons. The Developer and ARC representative will monitor and provide written documentation to the offending Owner. All repairs must be completed within seven (7) working days from receipt of written notification from the Developer or ARC representative.

4.8 Exterior Colors and Materials.

All exterior colors and materials including those for trim windows and doors are subject to approval by the ARC. Clearly indicate on submitted plans locations of all proposed exterior colors. Samples may be standard manufacturer's paint chip samples. Use of muted, earth related tones such as brown, green, dark red, blue or yellow which are appropriate to the historical style of the building are encouraged. Simple color schemes were typical of the early Redmond neighborhoods.

4.9 Exterior Lighting.

All exterior lighting must be indirect and/or shielded. The lighting chosen must have only a single bulb using no more than 60 watts. Colored light sources may be prohibited. Indirect, low walkway and landscape lights less than 18" high are acceptable. Other decorative and landscape lighting is subject to ARC approval.

4.10 Fences and Walls.

All fences within the Canyon Rim Village Subdivision shall be five (5) feet in height or less. The intent is to create good neighbor fences and make the alleys "people friendly". This allows the homeowners to view any activities in the alley and not create a dark box-like rear entry to garages. Wood posts for fences may be higher than five (5) feet with ARC approval. Any fence extended in front of the house must not exceed three (3) feet in height and have at least 3 inches spacing between pickets. Height shall be measured from the natural grade. "Natural grade" is defined as the site topography which exists at the time a lot is sold to the first owner by the project developer; fill material subsequently brought to a site does not modify this original grade reference. Fences along alleys shall be at least 3' away from the pavement. Fences next to sidewalks shall be at least four feet from sidewalk and have landscaping added to include plant material at least three feet tall. Fences adjacent to any pedestrian path shall be built to the same standards as stated herein.

Painting of fences is allowed with ARC approval of colors. Any painted fence must be maintained so as to conform to the standards established for fences.

Subdivision perimeter lots may have an exception to the 5' height limitation with ARC approval. The heights or elevations of any wall or fence shall be measured from the existing elevations of the property at or along the applicable points or lines. No cyclone, metal mesh, or chain link fences are allowed whatsoever except that fence posts may be metal or steel. Fences shall be constructed of grade #2, no-hole cedar or materials approved by the ARC. All side and rear fences constructed on the property line by the developer, or builder, are the property of the adjoining property owners. It is the adjoining property owner's responsibility to jointly maintain, repair or replace side fences when needed. Corner lots that anticipate constructing fences must have ARC approval prior to the start of construction. Privacy screening may be permitted with ARC approval for Hot Tubs.

4.11 Front Entrance.

Front entrances are essential elements in creating a sense of neighborhood; as a welcoming gesture. This element to the neighborhood may be a large columnar porch, classical portal, a loggia or other architectural feature appropriate to the style of the building. All front porches and decks are preferred to have a continuous stem wall foundation.

Duplexes are permitted on only lots 119 and 126 in Phase VI. Corner duplex units must have front entries on both corner streets. ARC may grant exceptions where lot dimensions warrant and will require enhanced architectural elements.

4.12 Garages.

Lots with alley access are required to site garages and access at the rear of the lot. Canyon Rim lots require ARC approval to minimize the visual impact of garages. The intent is to build an environment suited to people by reducing the impact of the automobile on the street, not to build homes for cars. Carports or RV parking may be approved by ARC if the design elements are consistent with the house style, do not adversely impact adjoining lots, and is not visually noticeable from the street. All designs shall be subject to ARC approval.

All single family lots must have at least a two-car garage. Any conversion of garage space must be replaced with additional garage space to meet the minimum two-car garage requirement and must be approved by ARC.

4.13 Garbage and Recycling Pickup.

Garbage and recycling pickup is anticipated to be adjacent to paving in the alley for those homes with alley access. Curbside will be in the street for those homes without alleys. However, the disposal company shall have the final right to determine where pickup will be.

4.14 House Plan Design.

The use of the same house front exterior elevation is not allowed on the same block. The intent of this rule is to avoid the repetitive, exterior sameness that results from building the same plan side-by-side on the same block.

4.15 Improvements.

Each Lot within Canyon Rim Village Subdivision shall be maintained in a clean and attractive condition, in good repair and in such a fashion as not to create a

fire hazard. Home building must be completed within one year from the start of construction. ("Complete" means obtaining certificate of final inspection from the city.) Yards and park strip must be improved and landscaped not later than 90 days from occupancy including the park strip area between the sidewalk and curb; in the event that the house is completed in winter, a 60 day extension may be granted.

Builders shall not disturb adjoining lots without permission. Each residence shall contain a minimum of 1100 square feet (not to include garage or storage). No T-1-11 or similar type of siding will be allowed on the exterior walls of any home, garage or any improvement. All exposed rafter tails will be a minimum of 2x6-inch material and barge boards a minimum of 2x8-inch material. All rake and eave overhangs on Craftsman Style homes must be at least 24 inches. Window and corner trim must be at least 5/4 by 4-inch material. ARC may require these dimensions to be larger or smaller based on size, massing and style of home or may grant exceptions for smaller material. Installation of underground sprinkler systems for front lawns and park strip of each home is mandatory. All lots shall provide a front walk a minimum of 3' in width, which accesses the front of the house from the sidewalk or street, exceptions approved by ARC. All front entries are required to be at least 18 inches above finish grade with a minimum of 2 risers to front porch.

While the park strip in front of each home is within the street right-of-way, it is each homeowner's responsibility to install and maintain sprinklers, trees and grass landscaping. The landscaped park strip must be sod and have two trees per lot and five trees for corner lots of a size and type determined by ARC.

4.16 Insurance.

The Association's Board of Directors, or its duly authorized agent, shall have the authority to and shall obtain insurance for all insurable improvements on the Common Areas subject to this Declaration against loss or damage by fire or other hazards, including extended coverage, vandalism, and malicious mischief. This insurance shall be in an amount sufficient to cover the full replacement cost of any repair or reconstruction in the event of damage or destruction from any such hazard if the insurance is available at reasonable cost.

The Board shall also obtain a public liability policy covering the Common Area, the Association, the Board, and its members for all damages or injury caused by the negligence of the Association or any of its members or agents.

In addition to the other insurance required by the Section, the board may obtain, as a common expense, worker's compensation insurance, if and to the extent necessary, and a fidelity bond or bonds on directors, officers, employees, and other persons handling or responsible for the Association's funds. The amount of fidelity coverage shall be determined in the directors' best business judgement. Premiums for insurance obtained under this Section shall be a common expense of the Association. The policy may contain a reasonable deductible and the amount thereof shall be added to the face amount of the policy in determining whether the insurance equals the full replacement costs.

4.17 Landscaping.

All disruption of the natural landscape must be repaired within 90 days of occupancy. During the winter, a 60-day extension may be granted. On unimproved lots, areas that have been disturbed and are highly visible or that constitute a dust problem may require corrective action as determined by the ARC.

Those lots with electrical transformers located in the park strip shall not plant any trees in the front and 3' feet within the side and rear of the transformer.

The front yard shall be covered with a minimum of 50% grass (sod) and must have at least eight 5-gallon shrubs, eight 1-gallon plantings, and one 5'-6' trees incorporated in front landscape plan. Excellent advice can be gained from the local nurseries and landscaping professionals. All landscape design is subject to review and approval by the ARC. Owners are responsible to provide and maintain two park strip trees per lot and five trees for corner lots. Type and size will be determined by ARC. Owners will be required to replace dead trees with type and size (min. 2-inch measured 6" above ground) originally planted. Street trees along Hemlock Avenue are Red Oak.

4.18 Livestock, Poultry and Pets.

No animals, livestock or poultry of any kind shall be raised, bred or kept on any Lot except that dogs, cats or other common household pets may be kept, provided that they are not kept, bred or maintained for any commercial purposes and do not constitute a nuisance. Doghouses shall be limited to two, and only allowed in the backyard. Owners are responsible to clean up after walking dogs.

All CANYON RIM VILLAGE homesites are within the City limits of Redmond and resident animals are subject to the City of Redmond leash laws. Animal nuisance ordinances are also in effect for barking and trash strewing dogs. If an animal is off the owner's homesite, it must be on a leash. Please contact the City of Redmond Police Department to report violations. The City of Redmond is best equipped to deal with these problems and can enforce stringent fines.

4.19 Lot Area Width, Setback Lines.

Lot area, width and setback lines shall be in accordance with the requirements of the applicable City of Redmond Zoning and Use Regulations and as shown on the Plat. No residential lot shall be further partitioned or subdivided.

4.20 Nuisances.

Boundary fences, walls or hedges must be kept in good condition and repair. Lawns must be cut sufficiently and maintained year round so that they do not become eyesores and detrimental to the values of other properties. Trees and shrubs that encroach on any other lot shall be trimmed and pruned if it is a nuisance to neighbors.

4.21 Occupancy.

No occupancy will be allowed before:

- (a) Final inspection and approval and compliance with all governmental regulations.

(b) Removal of all construction waste, materials and portable toilet.

(c) Completion of exterior painting (exception allowed during winter months)

No owner shall occupy, use or permit his Lot or any part thereof to be used for any purpose other than a private residence for the Owner, their family or their guests, except that each Owner shall be permitted to rent the unit when he is not in occupancy. The rental period shall not be less than one month. Home occupations will be allowed as under the current City of Redmond Zoning Ordinance.

4.22 Outside Fixtures.

Recreational equipment, like basketball hoops or play structures, are allowed only in alleys or backyards.

4.23 Parking.

No parking on any street shall be allowed of any horse trailer, travel trailer, commercial 18 wheel tractor, boat trailer, camper or incapacitated motor vehicle. Boats, trailers, buses, motor homes, commercial vehicles, trucks larger than one (1) ton, recreational vehicles, disabled vehicles or other similar vehicles shall not be parked or stored on any Lot in a position whereby said vehicles will be visible from the street. No unit shall exceed 25 feet in length. Owners must provide improved parking areas of asphalt, concrete or gravel pads.

No parking whatsoever shall be allowed in access and alley easements; it is each owner's responsibility to see that their guests, invitees, and lessees abide by this condition. No vehicles shall be parked in the street for more than 24 hours at a time.

Parking is allowed on both sides of street except where posted or curbs are painted yellow indicating "No Parking" zones.

4.24 Required Setbacks.

All improvements shall be erected, placed, altered and maintained in accordance with all applicable City of Redmond setbacks, building height limitations, solar setbacks, building codes and the ARC guidelines for CANYON RIM VILLAGE Subdivision.

4.25 Roofs.

All roofs and roofing materials shall be limited to quality composition roofs (25-year or better), slate, tile, fiberglass or other acceptable fire resistant materials approved by the ARC. No wood, shake-shingle or other highly combustible roof materials will be allowed. Roof materials shall be of earth related colors; no metal roofs are allowed. Colors shall not be bright and outstanding. Suggested colors include Weatherwood, Ebonywood (black), and Driftwood (gray).

4.26 Sidewalks.

Owners are responsible for clearing sidewalks of snow and debris.

4.27 Sight Distance at Intersection.

Sight distance at intersections shall conform to City of Redmond ordinance.

4.28 Signs.

A maximum of two signs may be installed on a homesite during construction. After construction and home is occupied, no sign of any kind shall be displayed to public view on or from any Lot without the ARC prior written consent. Owner may display not more than one (1) "for sale" sign or one (1) "for rent" sign per Lot. Said signs shall be limited in size to not more than four (4) square feet.

4.29 Structures and Out Buildings.

No house trailer, manufactured home, modular home, mobile home, tent, shack, barn or other similar outbuilding or structure, whether permanent or temporary, shall be erected or placed on any Lot. No portable storage units shall be allowed.

Only earth tone (brown, gray, etc.) colored tarps and covers shall be allowed.

4.30 Model/Offices.

A model/office is allowed for any builder with multiple homes for sale with Declarant's approval.

4.31 Utilities.

No above ground utilities, pipes or wires shall be used to connect improvements with supplying facilities.

4.32 Vacant Lot.

The Owner of a vacant Lot shall maintain the Lot year round in a groomed and attractive manner so that the Lot does not become an eyesore or fire hazard and detrimental to the values of other properties.

4.33 Water and Sewer Supply.

No individual water supply system or sewage disposal system shall be permitted on any Lot.

Section 5. DECLARANTS IMMUNITY.

The Declarant has a non-exclusive right and power to enforce these Covenants, Conditions, and Restrictions, but the Declarant does not have the legal obligation to enforce or attempt to enforce the provisions hereof. In the event the Declarant refuses, neglects, fails or is negligent in enforcing or attempting to enforce these Covenants, Conditions and Restrictions there shall not exist or be created any cause of action or claim against Declarant, and each owner or any person or entity claiming by, through or from said owner hereby releases Declarant from and against any claim arising in connection with the development of Canyon Rim Village or related to Declarant's acts or omissions in preparing, filing or enforcing these Covenants, Conditions and Restrictions and shall be stopped from making or enforcing any such claim.
